**gierre**  
THE VALUE OF LIFETIME

*Professional ovens  
for Pastry and Bakery*

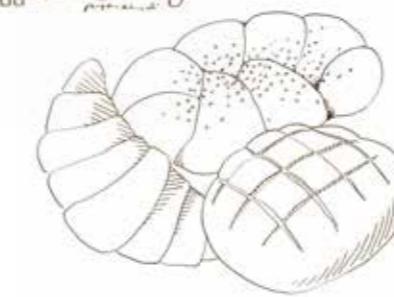

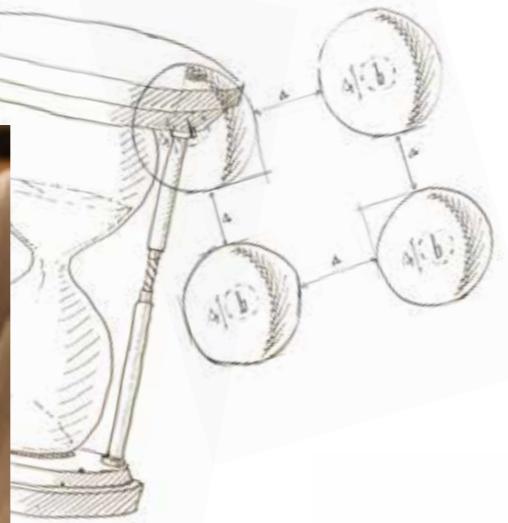

# *The value of lifetime*

**Who inspires us every day? You do.**

We like things that last.  
And we like to imagine our oven as a trusted travel  
partner, a lifetime reliability.  
For thirty years, we have been telling stories of  
success together with pastry chef and bakers from  
all over the world.

Day after day.  
Generation after generation.

## Gierre mission

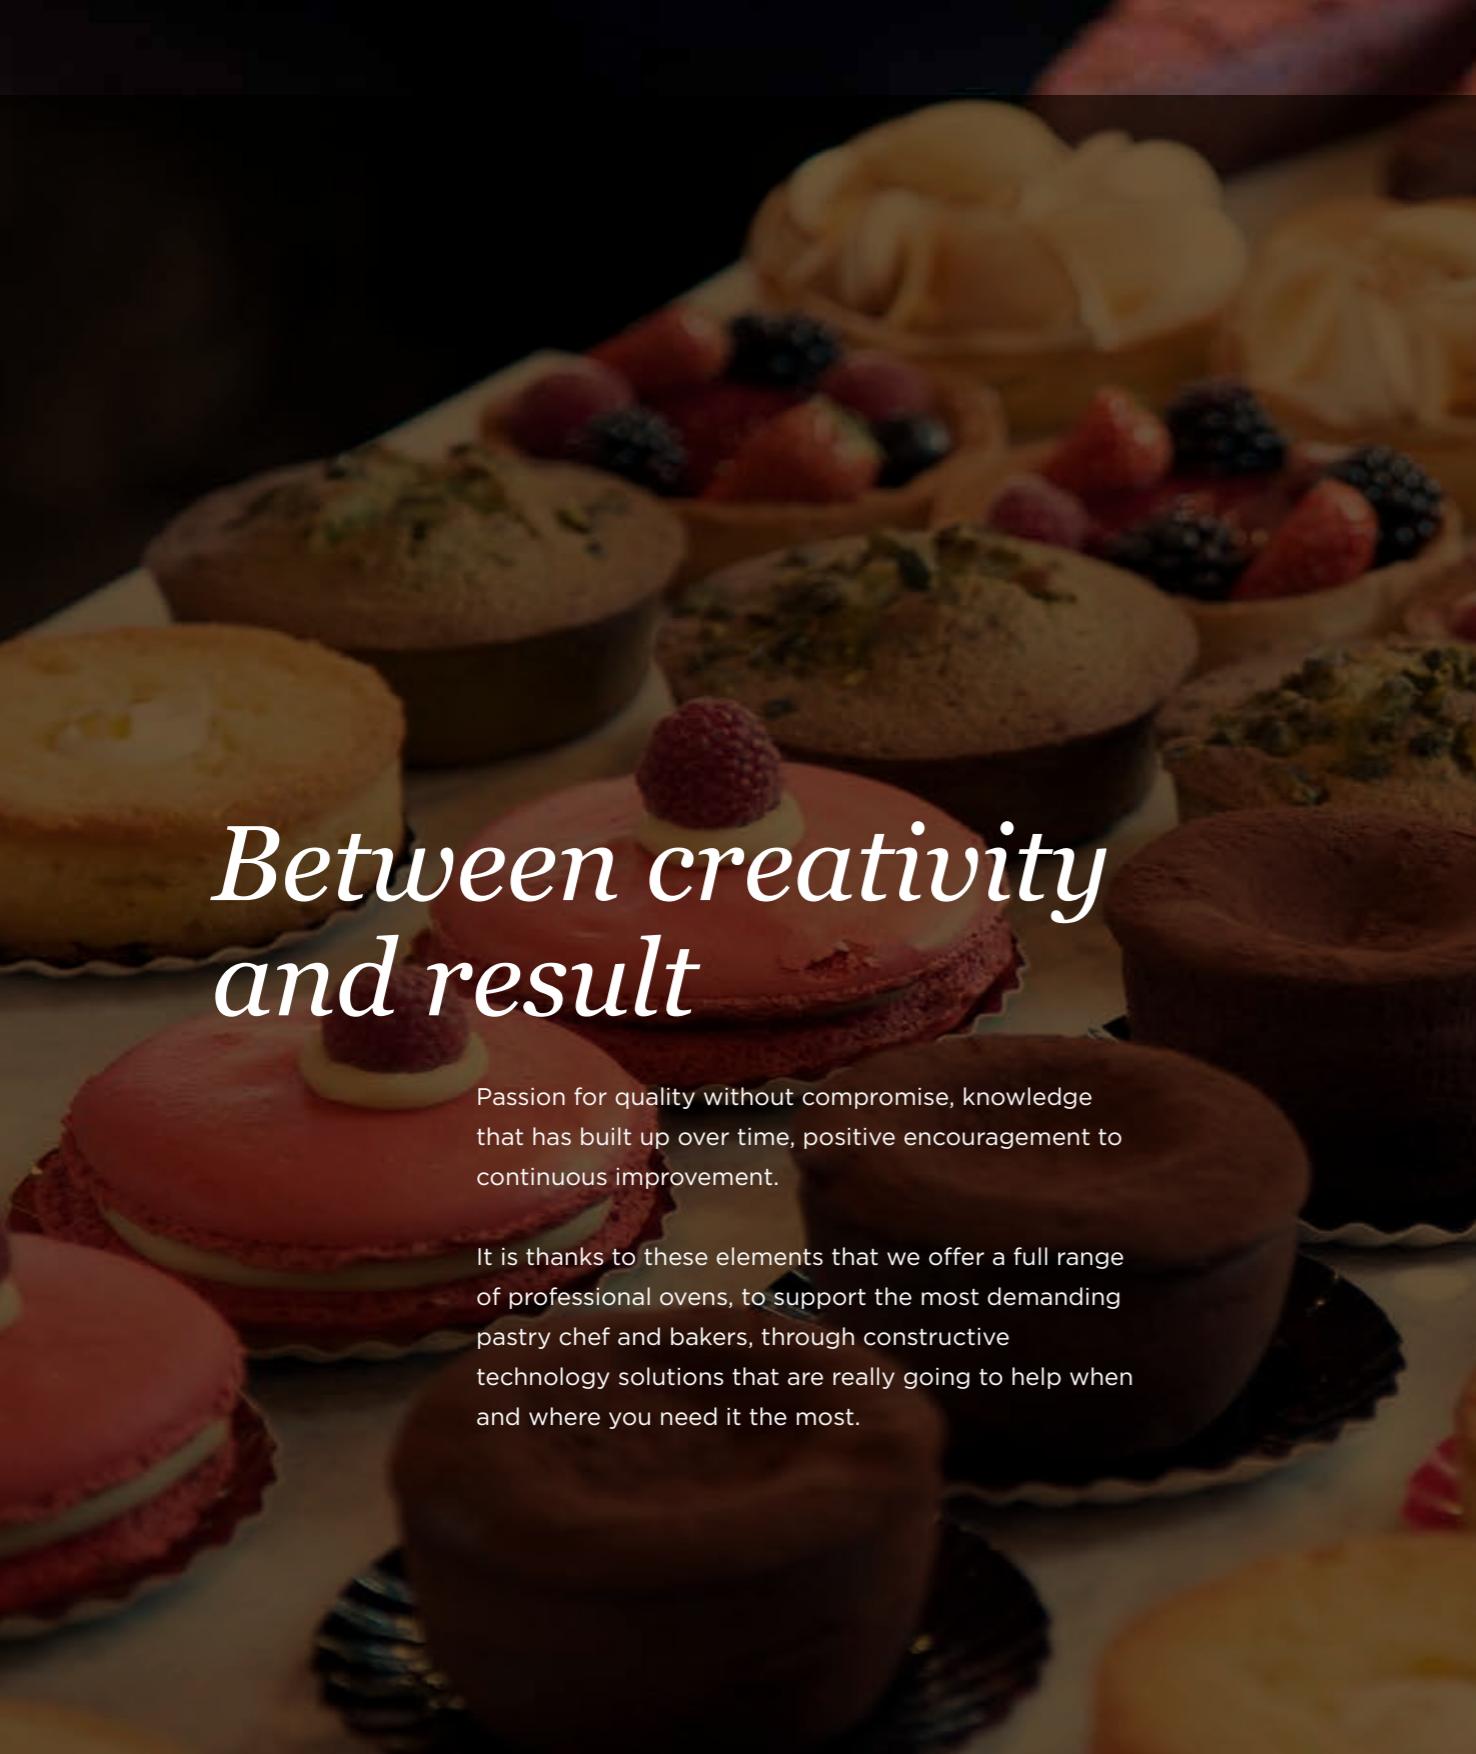

**Long lasting, reliability, cooking uniformity.**

Isn't this exactly what to expect from a professional oven?  
We think so.

## *Between creativity and result*

Passion for quality without compromise, knowledge that has built up over time, positive encouragement to continuous improvement.

It is thanks to these elements that we offer a full range of professional ovens, to support the most demanding pastry chef and bakers, through constructive technology solutions that are really going to help when and where you need it the most.

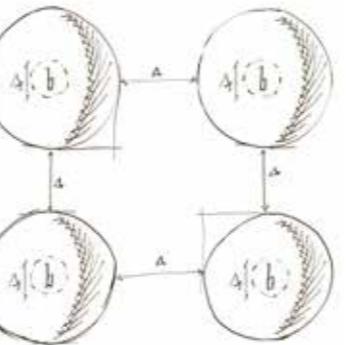

## *The duration: an endless classic*

Gierre philosophy has always been the same: for thirty years the same passion for cooking together with a continuous quality research and direct knowledge of the sector, combined in order to offer professional ovens for pastry and bakery. Each oven valorises the time of those who choose Gierre.

A flashback to thirty years ago brings us to the first experiments and to our youthful enthusiasm. Another look and you find yourself to nowadays, things have changed, many goals have been achieved, but your Gierre oven is still at your side.

**BAKETEK 500 P**

# *Cooking uniformity: we know the secret*

In pastry and bread-making the rules are laws written on stone:  
one of the foundations is cooking uniformity, and we know it well.

For more than thirty years Gierre has been investing in research  
and development to ensure a ventilation system leading to  
maximum effectiveness of cooking uniformity results.

From the first to the last tray you will not notice the difference.  
Should we bet?

# *Reliability and experience: a great team work*

In your work you must be creative but precise. Enterprising but measured.  
You have to take many decisions and errors are not allowed.

Every day a new challenge awaits you, and the main goal is always to exceed the expectations of those who gave you their trust.  
There is someone who shares all this with you.  
Accepts the challenge, Gierre is at your side.

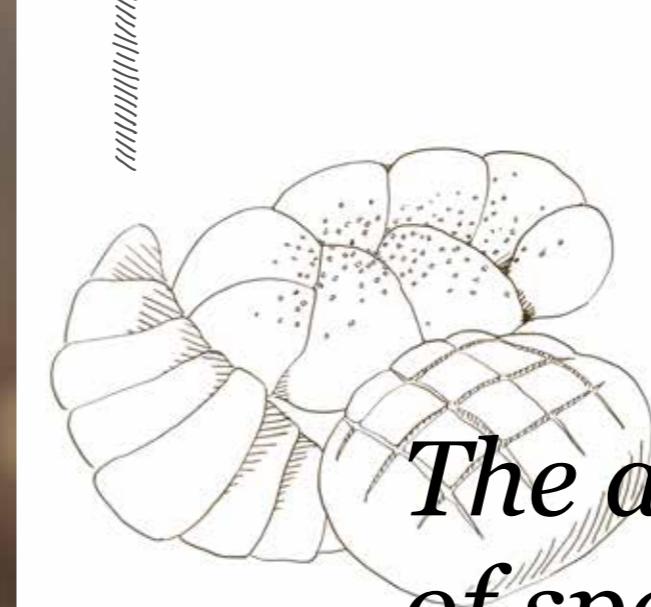

# *Imagination is not enough*

Technology as connecting point between idea and success: we design our ovens with this awareness.

Solutions created to support professional bakers and pastry chef, through constructive technology solutions that effectively help during specific operations.

## *The advantage of specialisation*

We grew up in the field for over thirty years, and we know the professionals' needs. We feel strong in doing what we do best: giving authentic and concrete responses to Pastry, Bakery and Snackery markets.

We measure the results in terms of performance and real benefits. We never forget this when we design and build our ovens.

For this reason, the whole cycle of development, design and production is made internally, in our offices in Italy, from the initial concept to the final testing.

**MEGA BAKERY 640 D**

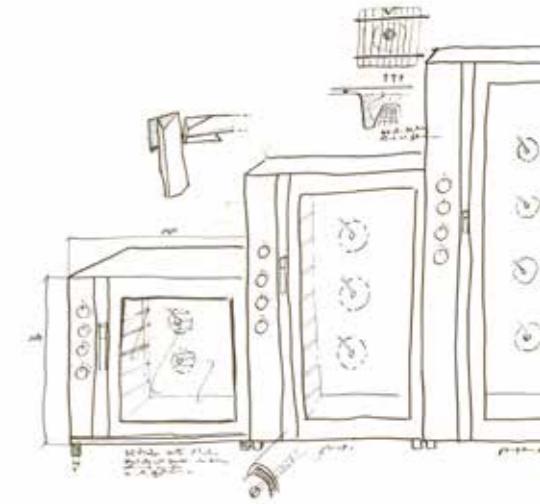

## *Range completeness*

We have developed a truly complete range of ovens dedicated to each specific application: from smaller ovens with 3 and 4 trays, for products in the Snackery segment, to 16 trays aimed to meet the needs of the most advanced professional laboratories of pastry and bakery.

For each line launched by Gierre you can choose between different sizes and interfaces, in addition to numerous accessories and complements such as proofers, supports, grids and specific trays.

Gierre is a partner at 360 degrees.

# *Professional Pastry & Bakery*

**Expression of excellence.**

Professional laboratories of the Pastry and Bakery Industry, must be able to count on solutions with precise functional characteristics: resistance to very intense and extended work cycles, maximum cooking uniformity, reliability and durability.

# *BAKETEK: the cutting-edge answer to the needs of the most demanding bakers and pastry chef.*

BAKETEK is the line of Gierre ovens dedicated to the Professional Pastry & Bakery.

BAKETEK ovens are specially designed for the most sophisticated laboratories and professional pastry shops, environments in which **time** and **precision, reliability** and **strength**, are essential parameters to choose and appreciate a solution.

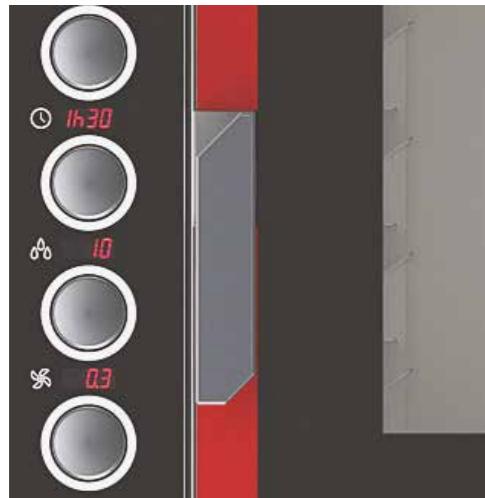

**BAKETEK 1000 P**

# Baketek

These ovens are our state-of-the-art response to the **more demanding cooks** requests: a range designed to enhance their creativity and excellence, offering complete cooking systems, observing the typicality of Italian recipes and international cuisine.

Know-how and specialization in professional ovens industry for pastry and bakery are enclosed in the BAKETEK range: an **iconic oven** for those who appreciate the Made in Italy "know-how".

## MAIN FEATURES

Scheduled ignition | 5

Steam extraction system

Insulation system at high-intensity

Three speeds reverse rotation

## BAKETEK LINE

BAKETEK 500

BAKETEK 1000

BAKETEK 520 GAS

BAKETEK 1020 GAS

BAKETEK LIEV 10

BAKETEK 1600

Reliability and durability are the result of constructive solutions and implemented techniques in over thirty years of experience with a **specific focus in pastry-making**. Resistant and performing components. Maximum optimisation of air recirculation inside the cooking chamber.

### ENHANCED HEATING UNIT

- 317 mm diameter resistance which improves the heat transfer
- 270 mm bi-directional radial fans with enhanced air flow
- Gas version with 10 stainless steel pipes with a diameter of 40 mm to optimise heat exchange

### PERFORATED AIR DIFFUSERS

Perforated walls with special structure capable of facilitating the homogeneous distribution of the air and the heat. Ideal for delicate products.

### FLAME IGNITION AND ELECTRONIC CONTROL

### OPTIMISING ENERGY CONSUMPTION

Control of overload in the event of simultaneous use with other machines.

### PASSO A PASSO FUNCTION

Quick and easy setting of the desired parameters.

## LCD digital control panel (P)

*On/off button*

*Function management LCD display*

*Return/go to button*

*LCD main menu button*

*Temperature setting button*

*Timer button*

*Parameters setting and adjustment knob*

*Oven light on/off button*

*Vent opening /closing button*

*Humidification button*

*Fan speed adjustment button*

*Gas reset button*

*Start/stop button*

*USB port*

## Digital control panel (E)

- On/off button*
- Oven light on/off button*
- Start/stop button*
- Gas reset button*
- Vent opening /closing button*
- Temperature display*
- Temperature adjustment*
- Timer display and automatic pre-heating function*

- Humidification display*
- Humidification adjustment*
- Fan speed display and rapid cooling function*
- Fan speed adjustment*

## Electromechanical control panel (M)

- On/off knob*
- Temperature setting and adjustment knob*
- Time setting and adjustment knob*
- Humidification setting and adjustment knob*
- Temperature control*

# *Light Pastry & Bakery*

**As just made.**

Bread and bakery dealers, supermarkets, delicatessens and chains of pastry and bakery shops: these and many other professional businesses require ovens for immediate use and at the same time powerful, reliable and easy use "at first sight".

When simplicity becomes the main focus, MEGA ovens are the real and true point of reference in the segment of professional "light" ovens.

# MEGA: *Easy and performing, at your side every day.*

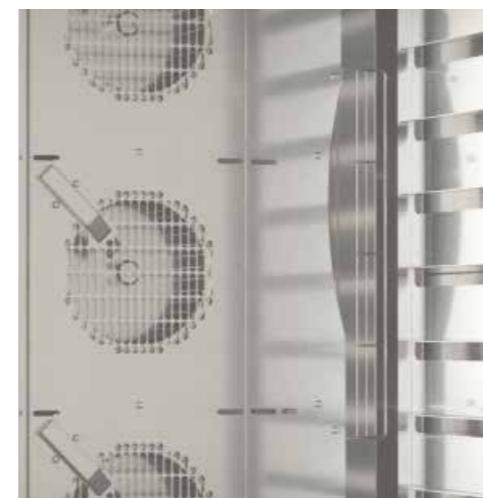

MEGA is the line of professional Gierre ovens dedicated to Light Pastry & Bakery.  
The high versatility and costs optimisation make MEGA ovens accomplices of success in the kitchen.

**MEGA BAKERY 1040 D**

# Mega

MEGA ovens know how to combine great **simplicity of use** with high standards in terms of **durability, reliability** and **cooking uniformity** on each tray. In the digital version you can store up to 60 recipes with 5 cooking steps each.

## MAIN FEATURES

**Three speeds  
reverse rotation**

**Passo a Passo  
Function**

- Rounded corners of the cooking chamber
- Double tempered glass inspected door
- Air conveyor and grid supports easily disassembled

## MEGA LINE

**MEGA BAKERY 440**

**MEGA BAKERY 640**

**MEGA BAKERY 1040**

**MEGA LIEV 12**

## Digital control panel (D)

- On/Off button*
- Oven light on/off button*
- Start/Stop button*
- Fan speed setting and rapid cooling button*
- Core probe (optional)*
- Temperature display*
- Temperature setting*
- Time and automatic pre-heating function display*
- Time setting and pre-heating selection*
- Humidification, fan speed display*
- Humidification setting and fan speed*
- Programs display*
- Programs management*

## Electromechanical control panel (M)

- On/off knob*
- Temperature selection and setting knob*
- Time selection and setting knob*
- Humidification selection and setting knob*

# *Snackery*

**The small with the same performance as the big.**

Compact ovens ideal for places where space is precious. Bar, snack bar, pizzerias and self-service have immediately appreciated the user-friendliness, the power and quietness in its small size. BRIO ovens are technologies designed for cooking and regeneration of small snacks like brioches, cakes, small pizzas, precooked and frozen food.

# ***BRIO:*** ***Ultra concentrated professionalism.***

BRIO is the line of professional Gierre ovens dedicated to Snackery segment.

The style is clean and the design is linear: Snackery ovens have a new **attractive and pleasant look**, becoming a furnishing feature in modern kitchens.

Those who used Brio ovens line, recognises their **strength**. Heating and cooking has never been so **simple and fast**.

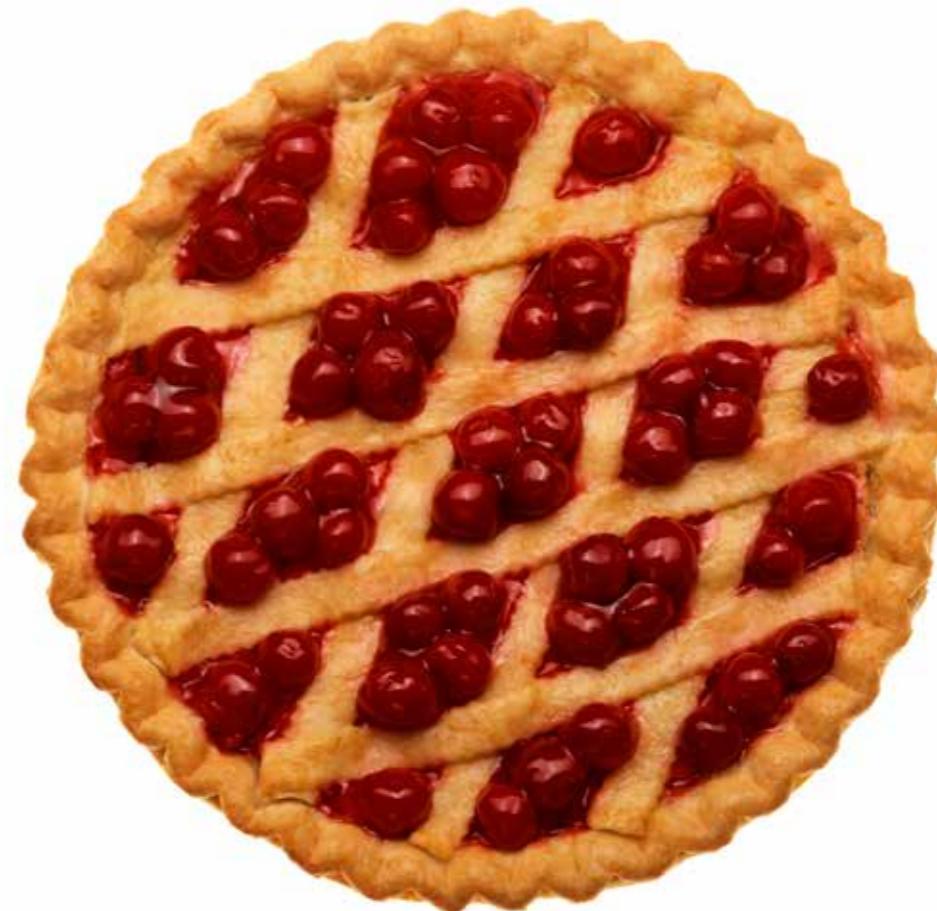

**BRIOX DIGITALE**

# Brio

The air flows have been studied and tested in order to obtain a **perfect cooking uniformity** giving the possibility, thanks also to the humidification function, to get fragrant and perfectly cooked snacks, even at full load.

The use of stainless steel, the cooking chamber with rounded corners, the removable gaskets and door, guarantee a **quick and efficient cleaning**.

As evidence of Gierre's products safety and quality, all ovens of the Snackery line are CE certified and CB tested.
